“In my series of works, I express the rhythm of colors and lines, and use different cool and warm colors to alternate and combine. Fluid lines and colors, sometimes I use firm brushstrokes, sometimes I use gentle brushstrokes, with curves and shapes, combined with different scenes or natural elements that appear in my life, showing different rhythms.”

HSIAO-CHING CHEN

ES

Chen Hsiao-Ching es artista y educadora de Taipei, Taiwán, con 30 años de experiencia en educación artística. A través de la pintura, explora la mente, utilizando el color y los materiales para expresar emociones y estados psicológicos difíciles de describir con palabras. Su obra combina frecuentemente la luz y los gatos, simbolizando la tranquilidad y la sanación.

Para Chen, el arte congela momentos de emoción, haciendo lo intangible tangible. Cree que el arte ayuda a explorar y liberar las historias del interior de la mente.

“The human mind hides a complex world that is difficult to describe concretely through language or words. Yet, artistic creation has the power to soften our inner world, allowing us to explore and release the stories within. If anyone who views my works feels inspired to tell a story of their own, that would be truly wonderful.”

“These paintings are not only a form of artistic expression but also a record and release of emotions. They demonstrate how colors influence feelings while inviting viewers to interpret the artwork through their own emotional lens. For me, the essence of creation lies in a dialogue with the world and myself, with color serving as an indispensable bridge in this conversation.”

“In Chinese culture, the snake embodies wisdom and transformation, resonating with the symbolic meanings of the chrysanthemum and plum blossom, reflecting the cycles of life and rebirth. Through these works, I aim to convey the profound essence of traditional culture and its innovative expression in the contemporary context.”
